WORK EXPERIENCE

The Wisconsin Union

Lead Building Manager

October 2015 - August 2018

- Oversaw building operations between Memorial Union, Union South, and Red Gym.
- Facilitated audio and visual configurations for events, provided high-end customer service, assisted individual business units, and assured building and patron security.
- Managed 15 student employees who also oversaw operations and events throughout both Unions.
- Conducted prospective employee interviews, and trained/mentored new student employees.
- Documented building activities and currency exchanges in a professional nightly report sent to all full-time Wisconsin Union staff.

QBE Insurance Group

Digital Innovation Lab Intern

May 2017 - August 2017

Conducted experiments with the latest technological advancements in order to provide accurate insurance benefits for customers worldwide:

- Followed the Agile Software Development process in two projects with a team of interns and full-time employees.
- Used Xcode and Swift to program an application that obtained data from a drone. This data was used to determine a flying score to better determine insurance rates on commercial drones.
- Used Python and PythonOBD (On-Board Diagnostics) to obtain information from a vehicle for interpretation. The information was used to calculate a driving score depending on the driver's habits when operating the vehicle.

The International Division

Web Developer/Graphic Designer

June 2015 - November 2015

- Managed multiple websites using Wordpress which included the main website as well as the websites of satellite departments under the International Division.
- Edited photos using Adobe Photoshop to maximize the use of every pixel when displayed on the web.
- Created flyers and information pamphlets using Adobe Illustrator and Adobe Photoshop to promote events held by the International Division.
- Maintained and promoted The International Division's mission through social media on a daily basis by updating the website and using social media to reach a mass amount of students throughout campus.
